Summary

Computer Science (IoT) undergraduate with a 9.25 CGPA and proven backend engineering experience shipping production reporting and reconciliation features for a live financial platform. Skilled across TypeScript/Node.js, C++, Python, and Java, with a consistent record of taking ownership of features end-to-end and leading technical and campus-wide initiatives.

Education

Vellore Institute of Technology, Tamil Nadu

B.Tech, Computer Science with IoT

2024 - Present

CGPA: 9.25

Venkateshwar International School, New Delhi (CBSE)

Senior Secondary (Class XII) - 94.3% | Secondary (Class X) - 96.4%

2024 / 2022

Experience

Nakad

Software Engineering Intern

May 2026 - July 2026

On-Site

- Built a bulk SES email system from scratch, including a secure cross-account AWS assume-role flow, and evolved it into an automated Excel/HTML reporting suite that eliminated manual reporting for the reconciliation team.
- Redesigned the integration module's job-status email with entry-level created/updated/rejected counts and a rejection-reason breakdown, giving ops visibility into failures without manual log digging.

Projects

Quail-AQE

Approximate Query Execution engine for DuckDB | Python, FastAPI, DuckDB

[GitHub Link](#)

- Speeds up analytics queries on large tables by deciding when results can trade exactness for speed, using a custom SQL parser and feature extractor to analyse each query's shape.
- Built a rule-based strategy classifier that routes queries to exact, sampling, filtered-sampling, or hybrid execution based on selectivity, joins, and variance.

FINDIT

Campus lost-and-found web platform | React, Firebase

- Built a full-stack campus lost and found portal with Google OAuth login restricted to verified student accounts, letting users report found items and search listings in real time.
- Used Firebase Firestore for real-time data sync and Firebase Storage for item photos, with client-side filtering by item name, location and date.

Technical Skills

Languages: C, C++, Python, Java, JavaScript/TypeScript, Kotlin

Core CS: Object-Oriented Programming, Data Structures & Algorithms, SQL

Tools & Frameworks: Git, VS Code, Node.js/Express, TypeORM, PostgreSQL, AWS (SES), MySQL, Android Studio

Leadership & Achievements

- Programme Representative, B.Tech CSE with IoT-** ranked Top 3 in branch.
- Events Head, Indian Society of Technical Education, VIT-** led an 80-member team organizing hackathons and technical events; served as Point of Contact for a 24-hour hackathon drawing 500+ participants.
- Member, Student Council, Venkateshwar International School-** drove inter-house initiatives and served as a key liaison between faculty and students.

Additional Information

Key Skills: Public Speaking, Leadership & Team Management, Time Management, Critical Thinking

Languages: English (Professional), Hindi (Native)
